To Whom it May Concern,

It is my pleasure to write a letter of recommendation for Axtell's, Inc.

In early August of '17, Axtell's Inc. completed an airport wide remarking project for the Houlton International Airport in Houlton, ME. Axtell's worked closely with us under a tight schedule to complete the project before our annual air show.

Axtell's employees showed up ready to work, and were able to complete the entire airfield in ~4 days, working long hours in an effort to meet our deadline.

Going above and beyond, they were able to identify areas that needed additional surface prep before the project was started. Their crew split up, acquired the necessary equipment, correctly prepped the surfaces in question, and put in several long days (12+ hours) getting the job completed.

They were courteous, professional, and hardworking. I would not hesitate to call upon Axtell's Inc. for future airport marking projects.

If you should require any further information, please do not hesitate to contact me at (207) 538-7997.

Sincerely,

Benjamin C. Torres

Airport Director

Houlton International Airport
