To Whom It May Concern:

I had the opportunity recently to work with Axtell's, Inc. on a seal coat and striping project at the Tri-State Airport in Huntington, WV, and I would recommend this company to those considering proposals for similar work.

As the Executive Director for the Tri-State Airport Authority and responsible party for overseeing the work and administering the funds, it is my pleasure to say that Axtell's was a highly motivated company and eager to please. The project manager and his crew made sure that the needs of the owner regarding the standards of construction were satisfied. The project was very challenging from a scheduling and coordination perspective and Axtell's was flexible and accommodating.

Throughout the project, unforeseen issues continued to arise and Axtell's worked with us as a partner to resolve those issues. Axtell's provided capable staff throughout the duration of the assignment.

Therefore, it is my privilege to say that the cooperation and collaboration that Axtell's brought to the project was greatly appreciated. The project was a success and certainly Axtell's was a big part of it. I look forward to the opportunity to work with this company again.

Best Regards,

  
Jerry Brienza  
Airport Director
