Letter of Recommendation

To whom it may concern:

Axtell's Inc. performed airfield painting services for Orlando International Airport in April 2014. The project included the removal and replacement of approximately 100,000 square feet of Surface Painted Holding Position Signs and Runway Holding Position Markings.

Overall, the project went very well. Axtell's paint crew was well-prepared and knowledgeable of the applicable FAA Advisory Circulars which resulted in marking applications that met our expectations and FAA standards. Due to the high volume of airfield traffic, Axtell's volunteered to work at night at no additional charge so that the project could be completed in the most efficient and flexible manner, and to our satisfaction. It was a pleasure to work with a contractor that made customer service such a high priority.

Sincerely,

A handwritten signature in black ink, appearing to read "William W. White".

William W. White, C.M., ACE
Assistant Director of Airport Operations – Airfield
