

November 10, 2014

To whom it may concern,

Axtell's, Inc. Performed airfield painting services for Southwest Georgia Regional Airport in August, 2014. The project included paint removal and remarking of a cross-wind runway.

Overall the project went very well. Axtell's paint crew was well prepared and knowledgeable of all FAA specifications and advisory circulars. This resulted in marking applications that met and exceeded our expectations.

Axtell's also fulfilled our need to have the runway painted before our Fall FAA inspection. They worked efficiently and with great flexibility with our staff. They made customer service and quality their highest priorities and it was a pleasure to work with them.

Should you have any questions about our project, please do not hesitate to call me at 229.430.5175.

Sincerely,

Yvette Aehle
Airport Director
